Wonderful. Thanks for the update, Bob. Have a great weekend and I'll look forward to seeing you sometime soon.

Cheers,
Mikell

Subject: RE: October 17 Eco Team agenda

Hi Mikell. At EPA's request, I've had to focus on supporting them on responses to LWG for the bioaccumulation testing FSP this week. Also, we have yet to finalize their priorities for Parametrix' specific support tasks in the short term, so some of the Eco Team-requested tasks have yet to get underway. But here is a quick summary:

- CSM production tasks of course have yet to start, but it won't until the Eco Team finishes its work anyway. Same with the food web model graphics, I assume.
- We are prepared to review the TRVs, but at the moment we've been waiting to do that until our review of the PRE begins in earnest. The timing of that has not yet been decided, but we're pleased to dig in as soon as its time.
- Chris, Jeremy and I have exchanged a few e-mails on the herbivore receptor issues, and we still have to iron out some details, but we're not seeing too many big problems here. Chris can update you on Monday about this.
- We've yet to determine with EPA when to start work on the plant habitat ID and plant TRV questions, vs. other priorities. We are open to working out a good timeline for this, but first, I'd like to quickly review what the existing LWG proposals are for plant TRVs, and even if they have yet been derived by them.

Have a good meeting on Monday!
-Bob

Yes, thanks Bob. Could you please tell me how you're doing on the assignments we created during our October 3-4 Eco Team work session? I'd like to let the Eco Team know the schedule you're aiming for to complete the tasks we identified, and when they'll hear back from you on the products of your work.

Thanks,
Mikell

I won't be making this one as you may recall, Mikell, but thanks for keeping me in the loop. However, if any questions come up you might want my input on, I could be available by phone for short periods of time. I think you have my phone numbers...I'll be in the office. -Bob

Hello all,

Attached is the agenda for Monday's Eco Team meeting in Centralia. We'll get started right at 9:00a.m., so please arrive by 8:50a.m. to get settled. If you have any questions or comments, please let me know.

<<10.17.05.Eco Team Meeting agenda.doc>>

Also attached is a final draft of our benthic interpretive approach memo to the LWG. Please take a look at this before the meeting - we'll talk about it briefly on Monday and affirm that it's ready to send. If you have comments before Monday, please let Eric know. Thanks to Rob, Jay Field, Jennifer and Joe for pulling this together.

<<PredBenthicModelDirectionMemo101105.doc>>

Drive safely and I'll see you on Monday.

Thanks,
Mikell
